

Sandy Hertz is the Director for the Office of Climate Change Adaptation and Resilience within the Maryland Department of Transportation's (MDOT) Secretary's Office. She has been with MDOT since 2004 and brings over 25 years of experience in environmental protection to this position. Prior to working for MDOT, Sandy worked for the Maryland Department of Natural Resources in the Watershed Restoration Division and spent five years with a private environmental consulting firm. In her current role, she coordinates climate resilience and adaptation efforts across all six MDOT transportation business units and the Maryland Transportation Authority. Sandy serves as the current chair for the Maryland Water Monitoring Council and represents MDOT on several multi-agency workgroups and councils, including the Chesapeake Bay Cabinet, Chesapeake Bay Workgroup, Critical Area Commission, Coast Smart Council, and the Adaptation and Resiliency Working Group of the Maryland Commission on Climate Change.
